

Request for Unreasonable Hardship ***2013 California Building Code, Section 11B-202.4, Exception 8.***

ACCESSIBILITY REQUIREMENT

An unreasonable hardship exists where the cost of providing an accessible entrance, path of travel, sanitary facilities, public phones, drinking fountains, etc. exceeds 20 percent of the cost of the project *without* these features.

When the total construction cost of alterations, structural repair or additions does not exceed a valuation threshold of \$150,244.00, 20% of the adjusted construction cost shall be spent on compliance. When adjusted construction cost exceeds the valuation threshold of \$150,244.00 and the Building Official finds that compliance with the code creates an unreasonable hardship, compliance shall be provided to the greatest extent possible but in no case shall be less than 20% of the adjusted construction cost.

In choosing which accessible elements to provide, priority should be given to those elements that will provide the greatest access, by providing code compliance in the following order:

1. An accessible primary entrance to the space being altered.
2. An accessible path of travel to the altered area, from restrooms serving the area and from an accessible parking stall.
3. At least one accessible restroom for each sex that serves the area of alteration.
4. Accessible public telephones when provided.
5. Accessible drinking fountains when provided.
6. When possible, additional accessible elements such as parking, storage and alarms.

If you want to request an unreasonable hardship, you must complete the attached worksheet, and prepare a site and floor plan of the existing and proposed accessibility improvements. This information must be submitted to the Permit Center in duplicate, prior to processing of your permit application. One copy of the approval or denial will be returned to the applicant of the unreasonable hardship request.

Please note that this is not a request for hardship but is subject to approval by the Building Official.

Additionally, barrier removal is ongoing obligation for ADA and this application does not exempt the applicant of any obligation to removing barriers in a reasonable time frame and by signing this report you understand that this 20% is for this addition/alteration alone.

--------------	--------	-------

*If an area has been altered without providing an accessible path of travel to that area, and subsequent alterations of that area or a different area on the same path of travel are undertaken within three years of the original alteration, the total cost of alterations to the areas on that path of travel during the preceding three-year period shall be considered in determining whether the cost of making that path of travel accessible is disproportionate.

¹ Adjusted cost of construction does not include the cost of alterations to path of travel elements required to be upgraded outside the area of alteration, structural repair, or addition.
