

The City of Livermore has taken Styrofoam off the Menu!

By switching to recyclable and compostable take-out alternatives, Livermore businesses are reducing both litter and water pollution.

The City of Livermore applauds food service businesses that have discontinued the use of Styrofoam ahead of the July 1, 2011 deadline.

Wondering how you too can make the switch?
Visit cityoflivermore.net or call (925) 960-8015.
