

I. DATE OF PRESS RELEASE:

February 19, 2012

II. TYPE OF INCIDENT:

Multiple Vandalisms

III. FACTUAL INFORMATION:

The Livermore Police Department is investigating nine vandalisms that occurred on February 18, 2012, between the hours of 1:00 am and 2:00 am. The vandalisms occurred in the areas of Arlene Way, Charlotte Way, Felicia Way, and Almond Avenue. During the vandalisms, the suspect(s) launched large river rocks resulting in significant property damage. The damaged items include mailboxes, vehicles, and residences.

Investigators believe the suspects are using a launching device to hurl the river rocks. In some instances, the river rocks have traveled through residential windows at dangerous speeds.

In one case, a large river rock went through the front window of a residence and continued across a living room. The rock implanted into the sheetrock of a wall, next to a child's day crib. Fortunately, no one was injured.

LPD investigators obtained video surveillance from one of the vandalized residences. The video captured the below pictured vehicle leaving the scene.

The Livermore Police Department is seeking the community's assistance in locating and identifying the suspects in this case. If anyone has information or recognizes the vehicle from the surveillance footage, they are encouraged to call the Livermore Police Department at (925) 371-4900.

IV. LOCATION OF INCIDENT:

Arlene Way, Charlotte Way, Felicia Way, and Almond Avenue

V. SUBJECTS ARRESTED/INVOLVED IN INVESTIGATION:

LPD has no information on the identity of the suspects.
