

California Water Action Plan Presentation

Featuring John Laird, California Natural Resources Secretary
Thursday, January 30, 2014, 6:00 p.m.

City of Dublin Council Chamber, 100 Civic Plaza, Dublin, CA 94568

Water is a key public policy issue in 2014. The Tri-Valley's water providers and cities invited California Natural Resources Secretary John Laird to brief local leaders on the *California Water Action Plan*, which addresses the state's most pressing water issues and lays a foundation for sustainable management of our limited water resources. The resources below provide more information about the challenges and opportunities affecting our local water supply.
